

Extreme in Action: License Plate Capture Nabs Casino Crooks

BOSCH
Invented for life

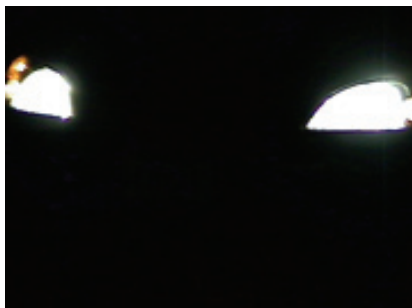

“The authorities were after this person for months, but she always found ways to escape the law. The Bosch REG cameras delivered police the evidence they needed to put this criminal away.”

Michael Stark, Bluff City Electronics

Customer: Rainbow Casino
Sector: Gaming
Product: REG License Plate Capture Cameras

License Plate Capture Nabs Casino Crooks

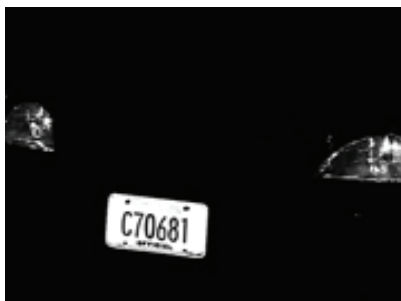

Bosch REG License Plate Capture Cameras have improved casino security across North America by providing effective vehicle surveillance and access control. At Rainbow Casino in Mississippi, police used images from REG cameras to capture a criminal who repeatedly preyed on vulnerable adults. The culprit had frustrated authorities for months, cheating victims of cash, bank cards, PINs and checks. Cooperating with the Mississippi Office of the Attorney General, Rainbow Casino delivered a clear license plate and vehicle image, leading to arrest. The accused pleaded guilty, receiving a several-year jail term.

Conventional Camera

Problem: Casino Operators Cannot Identify Vehicles Entering their Properties

- Conventional cameras do not effectively and consistently capture license plates on a 24/7 basis
- Difficult speed and lighting conditions make reliable capture impossible
- Casino cannot identify or prevent the entry of unwanted vehicles

Bosch REG License Plate Capture Cameras show clear plate images, irrefutable evidence that helped police convict a criminal preying on senior citizens.

Solution: REG Cameras for Effective 24/7 License Plate Capture

- Bosch REG License Plate Capture Cameras “get the plate” of every vehicle entering and exiting the casino
- Ambient Rejection technology overcomes problems associated with reflectivity, glare, headlights, darkness and speed
- High-resolution imaging delivers clear and usable plate images
- Cameras provide real-time plate capture and irrefutable evidence

Results: Technology Improves Security at Casino

- Casino operators know which vehicles are coming and going
- Unwanted visitors kept out of casino
- Improved casino security day and night
- Irrefutable evidence allowed successful conviction of known felon
